

To all clients of Security Assured Mobile Document Destruction, Inc.

In order to make sure that you, our clients, were provided with continued, quality, and professional on-site shredding services, without interruption, I recently entered into an agreement with the Magic Shred Company of Denton, Texas to service all our existing accounts and honor all our existing contracts. This will take affect beginning April 1, 2011.

From that date forward, Magic Shred will service all your monthly pickup needs, as Security Assured has done to date, along with all of your periodic file purging needs. The containers you presently have will remain the same, as will your monthly pickup dates. The only immediate change that you will see right away is that you will receive your monthly invoice from Magic Shred, rather than from Security Assured, as you have been doing up to this point. This new invoicing procedure will begin with your April 2011 scheduled monthly pickup invoicing.

You can also be assured that Magic Shred does a complete background and criminal check on their driver and employees, just as Security Assured had been doing.

I will personally be accompanying the Magic Shred truck driver as he makes your scheduled shred container pickups for the month of April 2011 so that I can introduce him to each one of you.

Also, beginning April 1, 2011, our company phone number of 940-627-4733 will be answered by Magic Shred personnel. If you have any questions, or need additional shredding services, I know that they will be very willing to assist you in any way they can.

On a personal note, I have known the owner of Magic Shred for a number of years now and I have always found him to have the same high standard of business ethics that I do. I feel very certain that you will be extremely pleased with all the shredding services that Magic Shred will provide to you and your company.

This change has become necessary for me to make at this time due to some personal reasons on my behalf. Although I will not see you on a monthly basis as before, I will still have a business relationship with Magic Shred, but more in a marketing position at this time, rather than in an actual operations position.

Sincerely,

Jim Popp  
President  
Security Assured Mobile Document Destruction, Inc.
