Regional collaboration is a crucial element in building strong emergency preparedness capabilities in North Central Texas (NCT). The NCT Emergency Preparedness Program facilitates collaborative regional preparedness efforts through regional training and exercises, resource sharing, planning coordination, and other supportive member services. Overall, annual membership program dues support local and regional programs and projects, enhance citizen safety, and help protect critical infrastructure in our region.

We look forward to your participation in the Program as we work together to bring the highest levels of preparedness and emergency management capabilities to our region.
